

Mouhamadou Gorgui CISSE

DATA SCIENTIST & AI – SEEKING END-OF-STUDIES INTERNSHIP (PFE)

Hybrid Profile: Data Science & Cybersecurity

+212 77 367 20 07 | gorguiciss25@gmail.com | [LinkedIn](#) | [Portfolio/GitHub](#)

EDUCATION

Université Mundiapolis <i>Master's Degree in Data Science and Artificial Intelligence</i>	Casablanca, Morocco 2024 – Present
Ecole Supérieure Multinationale des Télécommunications (ESMT) <i>Bachelor's Degree in Telecommunications and IT (Admin & Security)</i>	Dakar, Senegal 2019 – 2022

TECHNICAL SKILLS

Data Science & ML: Python (Pandas, NumPy, Scikit-learn), Statistical Analysis, Visualization (Matplotlib, Seaborn)
Deep Learning & AI: PyTorch, TensorFlow, Keras, Computer Vision (YOLOv8), NLP (RAG, Transformers)
MLOps & Deployment: MLflow, DVC, Docker, Hugging Face Spaces, Flask (API), Git
Big Data & Databases: SQL, MongoDB, Data Cleaning, Dataset Management
Cybersecurity & Network: Network Architecture (TCP/IP, OSI), Routing & Switching, Security (ACLs, VPN), Threat Analysis

ACADEMIC & PERSONAL PROJECTS

AI Cybersecurity Assistant (RAG) <i>Python, LangChain, OpenAI/LLM, FAISS</i>	Academic
- Developed a RAG (Retrieval-Augmented Generation) pipeline using a corpus of cybersecurity course materials. - Implemented data chunking, vector embeddings, and indexing for efficient semantic search. - Integrated an LLM to generate precise, context-aware responses to technical security queries.	
Classroom Attention Detection (YOLOv8) <i>Python, YOLOv8, LabelImg, OpenCV</i>	Group Project
- Created a custom dataset: collected classroom images and performed manual annotation using LabelImg. - Fine-tuned the YOLOv8 model to detect 4 classes: Focused, Distracted, Sleeping, Phone Usage. - Deployed the model for real-time behavioral analysis and attention monitoring.	
Geopolitical Analytics Dashboard <i>Python, Streamlit, Pandas, Plotly</i>	Personal Project
- Developed an interactive web application for conflict data analysis (Israel-Palestine Dataset). - Integrated geospatial visualizations (Maps), temporal trend analysis, and demographic insights. - Deployed the application with a navigation menu to make insights accessible to end-users.	

PROFESSIONAL EXPERIENCE

Intern - SSI (Information Systems Security) <i>AIBD SA (SSI Department)</i>	Oct. 2022 – Mar. 2023 Dakar, Senegal
- Implemented centralized antivirus management and performed a complete cleanup of the institutional website. - Reduced malicious redirections to 0% through in-depth log analysis and vulnerability assessment.	
Intern - SSI (Log Analysis & Automation) <i>Sonatel (SSI Department)</i>	May 2022 – Aug. 2022 Dakar, Senegal
- Automated application log collection and analysis. - Achieved a 40% reduction in incident analysis time by automating manual tasks.	
Intern - Supervision and Maintenance <i>Sonatel</i>	Aug. 2021 – Sep. 2021 Dakar, Senegal
Proactive supervision of service platforms and technical incident management.	

CERTIFICATIONS & LANGUAGES

Certifications: Google Data Analytics, CompTIA Security+, Cisco CCNA (Full Curriculum 1-4)
Languages: French (Native), English (Advanced - Technical)
