

Mouhamadou Gorgui CISSE

DATA SCIENTIST & AI – SEEKING INTERNSHIP (GRADUATION PROJECT)

Hybrid Profile: Data Science & Cybersecurity

+212 77 367 20 07 | gorguiciss25@gmail.com | [LinkedIn](#) | [Kaggle](#) | [Portfolio/GitHub](#)

EDUCATION

Mundiapolis University <i>Master's in Data Science and Artificial Intelligence</i>	Casablanca, Morocco 2024 – Present
Multinational Higher School of Telecommunications (ESMT) <i>Bachelor's in Telecommunications and IT (Admin & Security)</i>	Dakar, Senegal 2019 – 2022

TECHNICAL SKILLS

Data Science & ML: Python (Pandas, NumPy, Scikit-learn), Statistical Analysis, Visualization (Matplotlib, Seaborn)
Deep Learning & AI: PyTorch, TensorFlow, Keras, Computer Vision (YOLOv8), NLP (RAG, Transformers)
MLOps & Deployment: MLflow, DVC, Docker, Hugging Face Spaces, Flask (API), Git
Big Data & Databases: SQL, MongoDB, Data Cleaning, Dataset Management
Cybersecurity & Networking: Network Architecture (TCP/IP, OSI), Routing & Switching, Security (ACLs, VPN), Threat Analysis

ACADEMIC & PERSONAL PROJECTS

Cybersecurity AI Assistant (RAG) <i>Python, LangChain, OpenAI/LLM, FAISS</i> - Developed a RAG (Retrieval-Augmented Generation) pipeline based on a cybersecurity course corpus. - Implemented data chunking, vector embeddings, and indexing for semantic search.	Academic
Classroom Attention Detection (YOLOv8) <i>Python, YOLOv8, LabelImg, OpenCV</i> - Fine-tuned YOLOv8 model to detect 4 classes: Focused, Distracted, Sleepy, Phone Usage. - Deployed the model for behavioral analysis and real-time attention monitoring.	Group Project
Geopolitical Analytics Dashboard <i>Python, Streamlit, Pandas, Plotly</i> Integration of geospatial visualizations (Maps), time-trend analysis, and demographic insights.	Personal Project

PROFESSIONAL EXPERIENCE

Intern - ISS (Information Systems Security) <i>AIBD SA (ISS Department)</i> - Implementation of centralized antivirus management and complete cleanup of the institutional website. - Reduced malicious redirections to 0% through in-depth log analysis and vulnerability assessment.	Oct. 2022 – Mar. 2023 Dakar, Senegal
Intern - ISS (Log Analysis & Automation) <i>Sonatel (ISS Department)</i> - Automated the collection and analysis of application logs. - Reduced incident analysis time by 40% by automating manual tasks.	May 2022 – Aug. 2022 Dakar, Senegal
Intern - Monitoring and Maintenance <i>Sonatel</i> Proactive monitoring of service platforms and technical incident management.	Aug. 2021 – Sept. 2021 Dakar, Senegal

CERTIFICATIONS & LANGUAGES

Certifications: Deep Learning Specialization (DeepLearning.AI), Google Data Analytics, CompTIA Security+, Cisco CCNA (1-4)
Languages: French (Native), English (Advanced - Technical)
